

Become a recognised IFS Consultant

Trained, knowledgeable professionals demonstrate their expertise by joining IFS. Demand for IFS Standards and Programs is growing, allowing consultants to expand their services. As a recognised IFS Consultant, your clients can be sure you have been trained to interpret the IFS Requirements according to their intention.

Generate revenue by providing these services

- > Coach senior management
- > Support the product safety and quality management team
- > Provide training with official IFS Training materials
- > Conduct internal audits and pre-audits
- > Assist document management
- > Advise on specific technical topics
- > Provide specific and practical knowledge of the standard

Your path to becoming a recognised IFS Consultant

If you have relevant education and professional background or experience in the fields of the IFS Standards or Programs, you can become a recognised IFS Consultant.

7 STEPS

- 1. Register on the IFS Website.
- 2. Follow the instructions IFS sends you and pay the fee.*

3. Register for the IFS Professional Partner Platform.

4. Take the e-Learning course for consultants and pass the test.

5. Receive access to the consultant portal of the IFS Database. Here, you can download the recognised IFS Consultant Logo, edit your profile information, and access the IFS Tools.

6. You are then approved to work with companies as a recognised IFS Consultant.

7. Renew your admission by paying a fee every year.

*As we are in a transition phase, we are not taking admission fees currently.

Access the IFS Professional Partner Platform

Find the e-learning course and get access to training materials tailor-made for IFS Consultants. Qualify yourself and stay up to date with our e-learnings and other materials related to the consulting process. The platform offers a unique service to accommodate your continuous qualification. You can also take the relevant e-learning courses on the IFS Professional Platform to expand your services to additional standards.

Courses are available in English and mostly subtitled in the main IFS Languages. IFS takes fees for the training courses offered on the platform. You can find the details on the platform.

The platform is separate from the IFS Database. To enter it, you need to register separately. Log in or register to the portal *here* >

Offer IFS Training for Industry

As a recognised IFS Consultant, you can deliver industry courses based on official IFS Training materials. For further information, please visit the

IFS Training Provider webpage here >
